

Spring 1 Geography home learning

Here are a few suggestions for geography home learning which links with our topic about Antarctica. It would be lovely to see any different ideas that you can think of to show your understanding of what we are learning in class.

Please bring them in on Thursday afternoons to show and discuss with the class.

<p>Draw it</p> <p>Emperor penguins are one of the many animals that live in Antarctica. Can you draw and label the life cycle for an emperor penguin?</p>	<p>Design it</p> <p>Design a true or false quiz with facts about Antarctica and its physical features.</p>
<p>Research and draw it</p> <p>We will be learning about the impact that climate change is having on Antarctica. Make a poster to show the ways we can help stop climate change.</p>	<p>Research it</p> <p>Captain Scott is famous for his expedition to the south pole. Create a fact file about another explorer who visited the south pole.</p>
