

Summer Term 2023

We hope you have had a lovely Easter and are ready for the next action-packed term.

Let me take this opportunity to welcome Miss Jayamohan who will be in our class for the next few weeks.

This half term we will be learning about lots of exciting new topics.

In Geography we will be learning about China and in our art lessons we will be applying some Chinese techniques to create Chinese style art.

In RE our learning question is 'What is the good news that Jesus brings?'

In Science we are learning about 'Plants and Trees where we will look at

some of the different types of plants and trees there are; what they need to grow and survive and the different parts and functions of them. We will also continue our theme of the changing seasons and look at how the weather changes throughout spring as it goes into summer.

In computing we are going to be learning how to produce our own animated story books.

In PSHE we will be looking at the importance of money in our 'Money Matters' topic.

PE remains on Tuesday and Fridays so please make sure that your child has a **full indoor and outdoor labelled kit.**

Details of homework for this half term are on the attached sheet.

Thank you

Mrs Baker
