

## Spring Term 2024

We hope you have had a lovely Christmas and are ready for the next

stage in our learning.

In our topic lessons we are looking at how toys have changed throughout history. In DT we will be designing and making our own wheeled vehicles.

In RE our learning question is 'Was it always easy for Jesus to show friendship?' We will be learning about some of the times Jesus showed friendship when others did not.

In Science we are learning about 'Everyday Materials' where we will look at the difference between man-made and natural materials, their properties and their uses. We will also be finding out which materials are fit for a specific purpose. We will also be tracking the changes in the weather

as part of our ongoing topic of 'Changing Seasons'.

In computing we will continue our unit on 'Coding' where we are learning to write algorithms to make a computer program. We are also learning how to 'de-bug' programs that have errors.

In PSHE we will be looking at health and wellbeing. We will discuss how having high aspirations and a 'growth mindset' leads to positive attitudes to learning.

PE will be on Tuesdays and Thursdays so please make sure that your child has a **full indoor and outdoor labelled kit**.

Details of homework for this half term will follow.

Thank you.

Mrs Baker
